10" PORTABLE TABLE SAW WITH STAND #11-600S is a must-have for homeowners, small shops, and contractors. This portable saw has a powerful 2HP, 15A, 110V variable speed motor that has the strength to tackle any project. Selecting the proper blade speed allows the user to dial in precision, and performance for each type of material to be cut. This technology retains torque throughout the cut which will prevent burning of material and premature dulling of blades. This portable saw has all the features of a large shop saw including a quick-release blade guard, riving knife for through cuts and the capability of cutting 13/16" dados. Rack and pinion gearing for rapid blade elevation and lowering. Includes portable, foldable stand for easy transport and storage.
